

THE RED NOSE DAY 2009 SCHOOLS' SONG 'DOING SOMETHING FUNNY!'

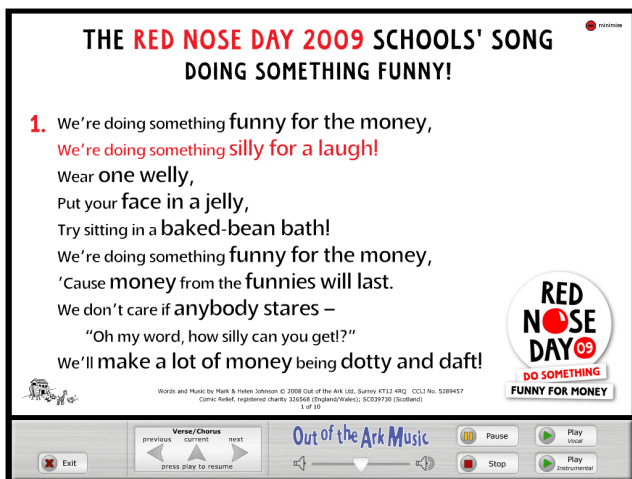

WORDS ON SCREEN™ - USER GUIDE

Words on Screen™ is an exciting new way of projecting lyrics in classrooms and assembly halls. The words for the song can be displayed on any screen or through a digital projector and are fully compatible with interactive whiteboards.

Words on Screen™ provides synchronisation of the lyrics with the music as it plays (ensure that your computer has sound and that speakers are installed/connected). The lyrics are highlighted as they are sung.

Using **Words on Screen™** couldn't be more easy! You can control the song in a number of ways:

Play Vocal/Instrumental: The song can be played either with the vocals or without. To switch from Vocal to Instrumental, simply click on the appropriate button and the song will continue from the top of the page.

Pause: This button pauses the song. Press play to restart the music, which will continue from the point at which you paused.

Stop: This button stops the song. Press play to restart the music (it will restart from the beginning of the song).

Verse/Chorus: These arrows enable you to skip to the next verse or chorus, replay the current verse or chorus, or skip to the previous verse or chorus. When any of these arrows are used, the song will skip to the required verse or chorus and the music will pause until you are ready to continue. Press play to resume.

Volume Slider: You can control the volume of the song by dragging the slider to the left or right. Please note that the maximum volume of the sound is dependent on your computer or whiteboard settings.

Exit: This exits the program.
